NEWS & UPDATES

Township clean-up was June 13. This year 27 residents utilized this service to reduce the amount of trash in our township. Thanks to David and Stephanie Morgan, Dan Wanink, Phyllis Carlson and Harper Robinson for volunteering their time to support the clean-up day.

Please be mindful of township ordinances. We want to maintain a clean, safe, and healthy township for all of us. If you are unsure of our township zoning or camping ordinances, please view our township ordinances on our webpage.

Hall rental availability

The township hall is available to rent for residents and non-residents. It's great for holding celebrations and meetings. Check it out for your next event. The hall has WiFi, kitchen, bathroom, and TV included in the rental.

Visit our Facebook page by going to: "Norwich Township Newaygo" and click "follow." This is a great way to get updates and important information on what is happening in the township.

Several road improvement projects have been approved for this summer. We have put together a multi-year plan to maintain a quality road system for our township.

We recently have completed a very comprehensive township survey that helps the board and planning commission in our decision making. Thank you to those of you that took the time to submit our township citizen survey. The planning commission is in the process of updating the township master plan utilizing the data.

Thank you to residents that have been working on cleaning up their properties. We also appreciate the residents that mow alongside the road in front of their properties. It really makes the township look nice and increases visibility for traffic and helps to reduce accidents.

If you have any questions, suggestions or comments, please reach out to one of our township board members.
